

Integrated key management & facial authentication

Torus + Wicket makes it easy for staff and contractors to access the keys they need. This integrated solution means only authorized personnel have access to keys - you can control access to each key and know exactly who has them.

Manage

Administrator creates new cardholder and assigns permissions in Wicket.

Authenticate

Cardholder presents credential to the reader mounted on the cabinet

Access

Only the required keys will be accessible. All others remain locked in place

Audits

Comprehensive reporting is available. All transactions are automatically recorded

Notifications

Customizable notifications are sent. E.g. if keys are overdue

Security

Keys are secured when not in use and can only be accessed by authorized users

Efficiency

Reduce time and frustration associated with manually checking keys in and out

Accuracy

Maintain consistent details across systems without additional data entry

Unified Reporting

Enjoy comprehensive reporting and a single source of truth

Advantages

Deploy seamlessly across all your sites allowing for comprehensive management of cardholders, buildings and keys. Update permissions in real time and view all reporting on user activity and alarms from within Wicket.

Requirements

- Torus cabinet
- Torus software account + integrations
- Wicket security solution
- Current Wicket software licence
