# TORUS

integriti
INTEGRATED SOLUTIONS

Integrated key management & access control

Torus + Integriti makes it easy for staff and contractors to access the keys they need. This integrated solution means only authorized personnel have access to keys - you can control access to each key and know exactly who has them.

Manage
Administrator creates new cardholder and assigns permissions in Integriti.

Authenticate
Cardholder presents credential to the reader mounted on the cabinet

Access
Only the required keys will be accessible. All others remain locked in place

Audits
Comprehensive reporting is available. All transactions are automatically recorded

Notifications
Customizable notifications are sent. E.g. if keys are overdue

Security
Keys are secured when not in use and can only be accessed by authorized users
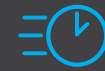

Efficiency
Reduce time and frustration associated with manually checking keys in and out

Accuracy
Maintain consistent details across systems without additional data entry

Unified Reporting
Enjoy comprehensive reporting and a single source of truth

Advantages
Deploy seamlessly across all your sites allowing for comprehensive management of cardholders, buildings and keys. Update permissions in real time and view all reporting on user activity and alarms from within Integriti.

Requirements
Torus cabinet
Torus software account + integrations
A compatible reader
Compatibility with Integriti v20+
