

## Integrated key management & access control

Torus + IntelliTrac makes it easy for staff and contractors to access keys to pool cars. This integrated solution means only authorized personnel have access to assigned vehicle keys. To gain access, the staff would need to enter their code or swipe RFID card and select the highlighted key.

### Manage

Administrator creates new cardholder and assigns permissions in IntelliTrac.

### Authenticate

Cardholder presents credential to the reader mounted on the cabinet

### Access

Only the required keys will be accessible. All others remain locked in place

### Audits

Comprehensive reporting is available. All transactions are automatically recorded

### Notifications

Customizable notifications are sent. E.g. if keys are overdue

### Security

Keys are secured when not in use and can only be accessed by authorized users

### Efficiency

Reduce time and frustration associated with manually checking keys in and out

### Accuracy

Maintain consistent details across systems without additional data entry

### Unified Reporting

Enjoy comprehensive reporting and a single source of truth

### Advantages

Deploy seamlessly across all your pool car sites. Update permissions in real time from IntelliTrac and view all reporting on user activity and alarms from within IntelliTrac.

### Requirements

Torus cabinet  
Torus software account + integrations  
IntelliTrac car pool booking solution
