HOW TWIN RIVERS SCHOOL DISTRICT ACHIEVED AN 8 MONTH ROI

Twin Rivers Unified School District in California is home to over 26,000 students from diverse backgrounds, with 50 different languages spoken in the community.

Managing keys across 44 school sites was a significant challenge for the school district. The key management process was inefficient, frustrating, and time-consuming.

Staff and contractors wasted hours traveling to a central location to collect and return keys. Often, essential keys were not readily available, resulting in lost time and money daily.

Keys frequently went missing, leading to the replacement of hundreds of keys at one site alone. This included master keys which raised security concerns for staff, students and valuable assets - requiring security personnel to spend hundreds of hours maintaining key usage, trying to track who has them and ordering missing keys and parts.

Twin Rivers required a solution that could secure keys when they aren't being used yet provide access when required by their staff and contractors. The Director of Operations implemented Torus in their facilities building and now management personnel have complete control of who can access critical keys. If keys are not returned, real-time notifications are sent allowing action to be taken right away.

Now that their key management is automated, Twin Rivers USD is saving an enormous amount of time and money every year.

The next phase involves deploying Torus to all their school sites.

THE CHALLENGE	THE SOLUTION	THE SAVINGS
300 KEYS TO MANAGE (initially)	\$65k UPFRONT (plus \$3k per year)	1337 HOURS PER YEAR
<ul style="list-style-type: none"> × Ineffective key management system × Losing keys × Lack of accountability × Safety and security risks × Wasted time and resources 	<ul style="list-style-type: none"> + 3 key cabinets installed. + Enterprise grade solution which is easy to install, use and scale across the school district + Real-time alerts via SMS and email + Reduced administrative burden 	<ul style="list-style-type: none"> ✓ ROI = 8 months ✓ \$101k per year labor efficiency gain across staff and contractors per year ✓ Eliminate time searching for keys or waiting for keys ✓ Reduced cost of replacing lost keys and changing locks

We prioritize enhanced security and operational efficiency for smooth school operations. Torus delivered an innovative key management solution that perfectly aligns with these goals and improves our bottom line as well.
