

## 3 MONTH ROI

### EVT GROUP SAVES 23,608 HOURS EVERY YEAR ACROSS AUSTRALIA AND NEW ZEALAND WITH AN ACCESS CONTROL SOLUTION FOR KEYS

EVT Limited stands for Entertainment, Ventures, Travel. EVT is an Australian giant that operates cinemas, hotels, restaurants, and resorts across Australia, New Zealand, and Germany.

The facilities team at EVT required an access control solution to enhance safety and streamline the management of physical keys across its hotels and resorts. With a high volume of keys used across dozens of facilities every day - contractors, front desk, housekeeping, maintenance, and cash handling - a scalable and efficient key management system is critical. The solution needs to enforce strict access control, ensuring only authorized people can access the required keys. Plus, the ability to assign keys based on many roles and schedules, such as housekeeping shifts, was essential.

The key management system should provide detailed activity reports to support oversight and eliminate unauthorised access. To meet audit and compliance requirements, the system must provide secure, tamper-evident logging and comprehensive data export capabilities.

Following a thorough RFP process, Torus was selected to provide the key management solution. To date 34 Torus cabinets are installed across 26 sites - 18 in Australia and 8 in New Zealand. EVT managers now have a single platform to monitor and control access to keys 'globally' in real-time. Only authorized individuals can access keys and if keys are not returned, Torus sends real-time SMS alerts - ensuring accountability and prompt return of the keys.

Torus is a highly secure, cloud-native solution supporting customizable permission settings and an intuitive user interface, which meets all of EVT's operational and compliance requirements.

With their keys under control, EVT staff are saving enormous time every day.

| THE CHALLENGE   | THE SOLUTION  | THE SAVINGS  |
|---|---|--|
| <b>HUNDREDS OF KEYS TO MANAGE</b>   | <b>\$19K PER SITE</b>   | <b>23,608 HOURS PER YEAR ACROSS 26 SITES</b>   |
| <ul style="list-style-type: none"><li>× High risk of a security incident, threatening staff and guest safety</li><li>× Unauthorized access to keys</li><li>× No reporting and analytics</li><li>× Audit and compliance issues</li><li>× No modern and scalable solution</li></ul> | <ul style="list-style-type: none"><li>+ 34 X Torus cabinets configured and installed across 26 sites.</li><li>+ Managing keys across Australia and New Zealand from a single platform</li><li>+ Improved security through real-time visibility and accountability</li><li>+ Enhanced operational efficiency</li></ul> | <ul style="list-style-type: none"><li>✓ ROI = 3 months</li><li>✓ 908 hours per year per site</li><li>✓ Reduced labor costs</li></ul> |

We needed a secure, scalable solution that could meet our operational demands and compliance requirements. Torus delivered exactly that. With Torus, we've regained control over our physical keys and significantly reduced the time and effort previously spent managing them.
