CLOUD-NATIVE ACCESS CONTROL FOR KEYS

KEEPING TRACK OF THE CASINO KEY MAZE

In the gaming industry, every key unlocks critical access. But with so many keys in so many places, it's all too easy for them to go missing.

Uncontrolled access to keys can result in severe consequences, including theft, fraud, safety risks for staff and guests. It can also result in regulatory non-compliance, operational disruptions, administrative burden and internal collusion. Plus, reputational damage and loss of trust .

Grand Master and Master Keys

Administrative Offices

Cash boxes, jackpot and vaults

Slot Machines

Table Games

Maintenance, Utility and Security Rooms

Main Entrances and External Doors

Storage, Lockers and Supply Rooms

THE PROBLEM WITH KEYS

A missing key is more than just an inconvenience. It's a risk. Because in casinos, if the right key is lost or unavailable, the consequences can be severe.

Escalating replacement costs

Regularly replacing missing keys and locks becomes very expensive, very quickly.

Wasted time and resources

Managing keys takes away from other important tasks.

Staff and student safety

When keys go missing or end up in the wrong hands, it puts safety on the line.

High security risks

Physical vulnerabilities can expose casinos to intrusions, potentially disrupting operations and leading to security risks.

Operational inefficiencies

Manual key handling and traveling between facilities - just to collect keys - increases staff downtime and reduces productivity.

Non-compliance

Problematic key management goes against the gaming industry's standards concerning security and access.

WHAT IS TORUS?

Torus is a cloud-native access control solution for keys. It's easy to use and scale across multiple campuses - allowing you to manage your school's keys, cards and tags with ease.

Since 2001, Torus has revolutionized key management in the gaming sector.

Harnessing the power and security of cloud-native technology, Torus will elevate the efficiency, security and safety of your casino.

Torus is proven to mitigate security risks, enhance accountability, ensure authorized access and deliver rapid return on investment.

So, stop wasting time on manual key management. With Torus, you can have complete key control at your fingertips.

COMPLETE CONTROL AT YOUR FINGERTIPS

Control every key across your casino network, ensuring only authorized staff access critical assets. You'll also benefit from a secure, scalable system designed to meet the demands industry.

Easy to install

With POE, DHCP and no local server requirements, Torus can be fully installed within an hour.

Cloud native

Seamlessly connect key cabinets without any IT hassle and access the software from anywhere.

Certified security

Gain peace of mind with a team of over 3500 Microsoft cybersecurity experts working to safeguard your data.

Remote key control

Make fast, informed decisions with insightful dashboards and reports accessible from anywhere, anytime.

Unlimited scalability

Use one account for unlimited keys, cabinets and facilities– perfect for casinos with multiple locations.

SMS and email alerts

Resolve security issues faster and keep the right people informed with real-time notifications.

Return on investment

Eliminate labor costs, contractor fees and the price of changing locks.

Solution for the future

Torus keeps evolving with over-the-air updates – making it a smart, long-term investment.

DELIVERING SAFETY, SECURITY AND OPERATIONAL EFFICIENCY TO YOUR CASINO

SAFETY

Exception reporting

Torus reports on overdue keys, changes to access rights, unauthorized access attempts and deleted users

Full audit trails

We audit every key event or action that takes place in your organization so users are always accountable

Electrical safety

Torus has achieved the highest levels of electrical and radio frequency safety certifications

SECURITY

Multi-custody keys

We ensure dual or multi-authentication to access critical keys and assets.

Access schedules

Torus grants or restricts access to keys based on day and/or time restrictions.

Real-time alerts

Torus sends you real-time SMS and email alerts on key transactions.

EFFICIENCY

Automated access

Torus ensures keys are available 24/7 to authorized users - no need for security personnel to manage keys manually.

Key return assurance

Torus ensures that keys are always returned and never leave the casino.

Seamless integration

Torus integrates with existing access control and other third-party systems.

TORUS MAKES EVERYONE'S LIVES EASIER

STAFF

Torus ensures staff have secure, 24/7 access to critical assets without delays.

This means staff can efficiently perform their jobs without worrying about lost or misplaced keys.

FACILITY MANAGERS

Torus delivers control over keys and improves efficiency across facilities—making manager's job much easier.

With automated alerts and full reporting, staying on track of your keys has never been simpler.

SECURITY

Torus enhances security with exception reporting, real-time alerts and multi-factor authentication, preventing unauthorized access to your casino.

Plus, detailed schedules help maintain accountability ensuring key control at every level.

CONTRACTORS

With Torus, contractors receive controlled, time-limited access to keys without compromising security.

What's more, with automated schedules and real-time reporting at their fingertips, your administrators will always know who's working when and from where.

HIGH SECURITY CLOUD INFRASTRUCTURE

Built using the power and security of Microsoft Azure, Torus provides an enterprise-grade key management system.

Manufacturer

Torus is designed and manufactured by CIC Technology Pty Ltd, an ISO 27001 & 9001 certified organization.

Data Security

Torus software inherits Microsoft Azure's multi-layered security, deployed across physical data centers, infrastructure and operations. It is supported by the largest team of cybersecurity experts in the world.
