## HOW IVANHOE GIRLS' GRAMMAR SCHOOL ENHANCED ACCOUNTABILITY AND MITIGATED SECURITY AND COMPLIANCE RISKS

Ivanhoe Girls' Grammar School is a private, Anglican, day school for girls, located in Ivanhoe, Melbourne. The school caters to over 850 students from the Early Learning Centre to Year 12.

The key management process was manual, inefficient, and time-consuming. Staff relied on a paper-based key log register and contractors were required to complete each time they needed access to keys. As a result, the contractors were often not accountable for returning keys on time.

This made it difficult for staff to monitor who had which keys and when they were taken. This manual, paper-based system raised concerns about the safety of students, staff and critical assets. It exposed the school and its community to unnecessary risks. Ivanhoe Grammar needed a solution that would automatically secure keys when they aren't used and provide controlled access when required by staff and contractors.

The school administrators implemented 1 Torus-50 in their facilities management building. The relevant staff now have complete control over who can access keys, and when.

When keys are not in use, they are secured within the Torus cabinet. If keys are not returned on time, real-time SMS are sent to the contractor or staff member, reminding them to return the keys. Now that their key management is automated and secure, Ivanhoe Grammar is saving a significant amount of wasted time every year.

| THE CHALLENGE   | THE SOLUTION   | THE SAVINGS  |
|---|--|--|
| <b>50-100 KEYS TO MANAGE</b>  | <b>\$19K UPFRONT<br/>(Plus \$1k per year software)</b>   | <b>416 HOURS PER YEAR</b>  |
| <ul style="list-style-type: none"> <li>× Ineffective key management</li> <li>× Unrestricted key access</li> <li>× Lack of accountability</li> <li>× Compliance and security risks</li> <li>× Wasted time and resources</li> </ul> | <ul style="list-style-type: none"> <li>+ 1 T50 cabinet</li> <li>+ Real time visibility</li> <li>+ Improved accountability</li> <li>+ Mitigated security and compliance risks</li> <li>+ Reduced administrative burden</li> </ul> | <ul style="list-style-type: none"> <li>✓ ROI = 7 months</li> <li>✓ 416 hours per year</li> <li>✓ \$32,000 labor efficiency gain</li> <li>✓ \$5000 per year on replacing keys and changing locks</li> </ul> |

We now have full transparency over our keys, removing the need for a key log register or contractors to fill out information. Torus provides us with the highest level of security and efficiency in managing keys.
