# TORUS   COMPLYFLOW

Integrated visitor management & key control

Torus + Complyflow makes it easy for contractors and visitors to access the keys they need. This integrated solution provides secure and automated key management as part of your check-in and check-out process.

CONTRACTOR

STAFF

Visitor

Checked in

HERE TO SEE:

Security
Keys are secured when not in use and can only be accessed by authorized users

Efficiency
Reduce time and frustration associated with manually checking keys in and out

Accuracy
Maintain consistent details across systems without additional data entry

Remote Management
Manage your sites remotely, freeing up time and resources for more complex tasks

Advantages
Deploy seamlessly across all your sites without the need for servers or IT infrastructure – just an internet connection. This solution allows for pre-defined and on demand allocation of keys. With Torus and Complyflow, you can manage contractors and visitors remotely, freeing up time and resources.
